H I S T O R Y

Grade Two

Subject:	History
Concept:	Concepts of time and chronology of notable inventors, both individual and Corporate
Title:	<i>Techno Timeline</i>
Grade Level:	2 nd grade
Objective:	Create and interpret a timeline listing the historical technological and/or electronic accomplishments of notable individual inventors and corporate inventors.
Materials:	Research on various individual inventors/corporate inventors of technological/electronic products, ruler, butcher paper or poster board [one per group], markers, rulers or yard sticks, glue sticks
Timeline:	One to two weeks
Instructional Procedures:	<ol style="list-style-type: none">1. Students will research the inventors/corporations that invented technological products, such as the television, radio, and the corporations that invented the VCR, the iPod, the Playstation, the other techno gadgets that students enjoy today.2. Students will work in groups to create a techno timeline of at least four [4] inventors [2 individual and 2 corporate inventors].3. Students will create a timeline in time periods of ten [10] years or more depending on the dates of inventions. Students can practice their multiples of 10.4. Students will write the name of the inventor, the name of the product invented, and the date the product was invented on the timeline.5. Students can cut out pictures of the inventor and/or pictures of the product invention to place on their timeline.6. Students will present their timelines to the class as a group. Students will share the science behind the product invention if applicable.
Integrated Curriculum:	Science, Corporation/Business Operations, Math
Assessment:	Students will be assessed on their research [teacher assisted], working with a group, presentation skills, accuracy and neatness of their timeline poster, and their ability to calculate multiples of 10 for their timeline.
